Prepare for a **GREENER** future!

Online Career Training Programs

The green industry, including building and energy efficiencies, is experiencing tremendous growth! ed2go now offers premier building performance programs designed to prepare students to enter the green workforce or transition into a new green job. Below is a listing of the current green programs. Please reference the program description for certification eligibility.

- **Principles of Green Buildings**

This program teaches individuals in the building, remodeling, or trade industry the principles of making buildings perform more efficiently. **Contact hours: 30**

- **Performing Comprehensive Building Assessments**

This intermediate program is geared toward conducting visual building inspections, performing diagnostic testing, and determining residential building improvement opportunities in the field; then documenting a home's performance, and prioritizing improvements for homeowners. **Contact hours: 30**

- **Senior Certified Sustainability Professional**

This program is designed to prepare students to become leaders in the green collar economy. The certification exam is included at no additional cost. **Contact hours: 110**

- **Certified Indoor Air Quality Manager (CIAQM)**

This program is perfect for facility managers, building engineers, and health and safety officers who want to improve the indoor air quality (IAQ) of buildings. **Contact hours: 16**

- **Building Analyst Quick Start**

This unique bundle of two very popular programs, Principles of Green Buildings and Performing Comprehensive Building Assessment, will prepare students to move into a new career in the ever growing green building field. **Contact hours: 60** (for bundle)

- **Certified Green Supply Chain Professional**

Students will learn to create sustainability programs and apply "lean and green" manufacturing strategies. This program also includes the certification exam at no additional cost. **Contact hours: 60**

- **Certified Indoor Environmentalist (CIE)**

This program teaches all of the practical steps needed in order to make indoor environmental assessments, including how to take samples and how to resolve common IAQ problems. **Contact hours: 32**

- **Solar Power Professional**

Learn the fundamentals of photovoltaic solar powered energy systems and gain the knowledge you'll need for an entry level position with a dealer, installer, or other photovoltaic industry company. **Contact hours: 120**
