Howard Turner has over 17 years of professional experience bringing project proposals to life for clients, managing and executing supply chain project work as Director, Supply Chain Systems for the St. Onge Company. Howard's professional history includes deep experience in supply chain optimization, distribution center layout/design along with leveraging supply chain execution systems and

warehouse management systems (WMS) across a broad range of verticals including manufacturing, automotive, retail and grocery.

EVENT SPEAKERS

6TH Annual Sustainability Symposium & Expo

MICKEY FINN

Thomas “Mickey” Finn has served as the Strategic Programs Consultant of the North Carolina Military Business Center (NCMBC) since January 14, 2009. The job of the Strategic Programs Manager is to assist small businesses in winning Federal Business opportunities and thereby growing their companies. To reach that goal, he is responsible to plan, coordinate, execute and continuously evaluate all activities of the NC Military Business Center’s Future Opportunities and Subcontracting Initiatives; identify, engage, preposition and assist NC companies to win future prime contracting opportunities, develop and win subcontracting opportunities, and to build defense contractor business capacity in NC.

TRACY SCOTT

Tracy Scott, Founder of Tracy’s Gourmet®, LLC, discovered that she weighed 257 pounds. With this knowledge and a family history of heart disease, she realized that no one was going to change her situation, so something on her own. This led to a journey of finding a better way to eat and changing her lifestyle. Incorporating more salads into her diet was the first step. However, Tracy found that the dressings she enjoyed contained ingredients that were negating her new, healthy food eating behaviors. Tracy decided to launch her own line of natural and organic salad dressings and marinades. Her products are now carried in 16 stores, including Whole Foods Market in North Carolina.

PAUL WORLEY

Paul Worley, Rail Division Director, North Carolina Department of Transportation, is in his 29th year at NCDOT and has focused his career on making the state’s railroads safer and improving railroad infrastructure and passenger rail service. He leads a multi-faceted division that provides state-supported NC By Train service, rail planning and project development, safety oversight programs, and the design and construction of rail freight and passenger track projects. The division also manages multiple federal and state programs for rail freight, rail infrastructure projects for economic development and job creation, rail-highway at-grade crossing safety improvements and passenger service enhancements.
