GRADING POLICY

Brunswick Community College employs a system of letter grades and corresponding quality points per grade to evaluate a student's performance in meeting the stated goals and objectives for each course. This grading system and the method used to calculate grade point averages are published in the *BCC Catalog and Student Handbook*. The grading system is also published in the syllabus that each instructor provides students in his or her courses. Each instructor's syllabus includes a detailed description of the methods of evaluation the instructor will use to evaluate a student's performance in the course and to arrive at a final grade. The College provides students grades at the end of each course and maintains an official transcript of grades for each student.
