

**PROGRAM STUDENT LEARNING OUTCOMES**

**Landscape Construction Management Technology Certificate**

**Program SLO**

Students will demonstrate knowledge of plant identification features of ornamental plants via the submission of the plant identification portfolio, achieving at least a 70% correct identification score on the faculty checklist.

Students that desire to obtain a NC Pesticide License will pass the NC Pesticide Licensure Examination with a score of 70% or higher, as evaluated by the North Carolina Department of Agriculture and Consumer Services (NCDA&CS).
