Mental Health and Wellness

Prehospital healthcare is a service industry type of profession. We help others in their time of need, which is very rewarding yet also very stressful.

Pride and ownership for your profession while helping others in their time of need are amazing experiences. With this in mind, maintaining a healthy balance related to your mental and physical health are extremely important.

Find constructive and healthy hobbies that you enjoy, eat reasonably well, stay active, and always make some healthy time for you.

However, it is NOT a guarantee of eventual accreditation."
