Find constructive and healthy hobbies that you enjoy, eat reasonably well, stay active, and always make some healthy time for you. Make and keep friends outside of EMS!

### HISTORY & PHYSICAL CERTIFICATION FORM FOR EMS STUDENT JOB FUNCTIONS

The North Carolina Community College System and other national standards require that Emergency Medical Services (EMS) students have a History and Physical completed by a Healthcare Provider (HCP) certifying that they are physically and emotionally able to perform the duties of a health professional in providing safe care to patients. In addition, the student is required to provide proof of immunity to certain diseases, and complete screening for tuberculosis. The student has a list of these requirements should he/she require your assistance in completing them.

**To the HCP: Please use your office forms to complete the H&P. BCC does not require a form for our files. We only require that this page be completed, stamped, and returned to us. The student has a list of EMS job functions to share with you. Please complete the following:**

Student (patient) \_\_\_\_\_ DOB: \_\_\_\_\_

I have examined the above named patient on this date, \_\_\_\_\_, and based on my assessment of this student's physical, mental, and emotional health he/she appears:

☐ **ABLE** to participate in the activities of an EMS student in the clinical setting.

☐ **NOT ABLE** to participate in the activities of an EMS student in the clinical setting

If no, please explain \_\_\_\_\_

#### To be completed by the Student:

*I understand that in certain situations I may be required to provide a copy of my History & Physical to a clinical affiliate partner at their request, per the clinical and field contracts. An example would be a review of the institution by an accrediting or oversight organization (i.e. NCOEMS, CoAEMSP, CAAHEP, OSHA, etc.). I also understand, and agree to maintain my health during my enrollment in the EMS program, and to seek assistance when needed, knowing that a failure to do so may compromise the health and safety of the patients in my care.*
